10365 Coppistraße, Berlin

PROFILE SUMMARY

Project and operations professional with experience across project management, event coordination, HR-IT consulting, stakeholder management, and cross-functional initiatives. Currently working as an HR-IT Consultant at IAV GmbH, supporting SAP SuccessFactors processes and serving as an Interim Product Owner for a cross-functional Roles & Permissions initiative. Previously worked as a Project Manager and Web Developer at Eventz & Trendz, coordinating clients, creative teams, technical workstreams, and event delivery in a fast-paced environment.

Strong organizational and communication skills with a hands-on approach to coordinating multiple priorities, solving operational challenges, and bringing structure to ambiguous situations. M.Sc. Computer Science with a strong interest in technology-driven organizations and operational excellence.

EDUCATION

IU University, Berlin

2024 - 2026

- Masters in Computer Science.
- Master Thesis: Machine Learning for Data-Driven Agile Project Management (Python, Explainable AI / SHAP).

University of Bolton, RAK.

2020 - 2023

- Bachelor in Software Engineering.

WORK EXPERIENCE

Junior HR-IT Consultant / Interim Project Owner | IAV GmbH

2025 - Present

- Support HR and IT teams in the administration and optimization of SAP SuccessFactors, including Recruiting, Onboarding and Offboarding processes.
- Serve as Interim Product Owner for the Roles & Permissions initiative, coordinating requirements and activities across HR modules and stakeholders.
- Coordinate with business and technical stakeholders to clarify requirements, resolve access and workflow issues, and ensure timely follow-up on open topics.
- Configure and support business rules, workflows, permissions and HR system processes.
- Maintain technical and process documentation using Jira, Confluence and LeanIX.
- Support HR reporting and data tracking through Story Reporting and dashboards.
- Translate business requirements into structured technical tasks and coordinate their implementation with relevant teams.
- Proactively identify process issues and support improvements to increase transparency, consistency and operational efficiency.

Project / Event Manager | Eventz & Trendz

2023-2024

- Managed projects from initial client requirements through planning, coordination, execution and final delivery.
- Acted as a central point of contact between clients, designers, developers, vendors and internal teams, ensuring requirements and deliverables remained aligned.
- Coordinated event-related activities, timelines, resources and operational requirements in fast-paced environments.
- Gathered stakeholder requirements, translated them into actionable tasks and followed up with responsible teams to ensure timely delivery.
- Managed client communication and handled changes, feedback and unexpected issues throughout project execution.
- Coordinated technical and creative workstreams, including website development, digital content and event deliverables.
- Maintained quality standards and resolved last-minute operational challenges during live events.
- Built and maintained websites and digital content using web technologies.
- Developed strong skills in prioritization, problem-solving, stakeholder communication and project ownership.

SKILLS & COMPETENCIES

- Project & Delivery Management: Project Coordination, Agile & Traditional Project Management (Scrum, Kanban), Event Management, Requirements Gathering, Stakeholder Management, Risk & Change Management, Cross-functional Coordination, Process Optimization.
- Operations & Business: Operational Planning, Team Coordination, Documentation & Reporting, Process Improvement, Problem Solving, Prioritization & Multitasking, HR & IT Process Management.
- Tools & Technical: Jira, Confluence, Excel, LeanIX, SAP SuccessFactors, SAP BTP, Python, SQL, Data Analytics, REST APIs, Git, GitHub, JavaScript, React.
- Languages: English (C1+ / Fluent), German (B1 / Working Proficiency), Hindi (Native).

CERTIFICATIONS

- Zendesk Customer Service Certification.
- SAP HCM Solutions.
- Deutsch Integrationkurs B1.2.

TECHNICAL PROJECTS

Master's Thesis — Machine Learning & Project Management

- Developed an ML-based solution using a synthetic dataset to investigate and evaluate predictive outcomes.
- Designed the data-generation and preprocessing workflow and prepared the dataset for machine-learning analysis.
- Applied machine-learning techniques to identify patterns and evaluate model performance.
- Analysed results using quantitative metrics and translated technical findings into structured conclusions.
- Documented the methodology, experiments and results in a reproducible research workflow.

Business Process Automation — IAV GmbH

- Developed and maintained automation solutions for SAP SuccessFactors business rules, using coding and virtual machine environments to automate repetitive processes.
- Analysed existing business-rule processes to identify opportunities for automation and efficiency improvements.
- Supported the implementation and testing of automated solutions, validating outputs and troubleshooting issues.
- Worked with stakeholders to understand requirements and translate them into practical automated workflows.
- Contributed to improving the consistency and maintainability of business-rule processes through structured documentation and testing.
